## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven Fischman on February 2, 2005.

The application has been amended as follows:

In claim 1, line 6, after location add --, **wherein an object may rest on any virtual key location except the armed key location without registration--.**

In claim 12, line 5, after location add --, **wherein an object may rest on any virtual item location except the armed item location without registration--.**

In claim 15, line 10, after location add --, **wherein an object may rest on any virtual key location except the armed key location without registration--.**

### *Allowable Subject Matter*

2. Claims 1-24 are allowed.
3. The following is an examiner's statement of reasons for allowance: Claims 1-24 are allowable as amended by applicant in 12-15-2004, and as amended by examiner above. In claims 1 and 15, "arming a selected key location prior to registering a keystroke corresponding to that

selected key location, wherein an object may rest on any virtual key location except the armed key location without registration". In claim 12, "arming a selected item location prior to registering an object as being detected at that selected item location, wherein an object may rest on any virtual item location except the armed item location without registration". The closest prior art Rafii et al (6,614,422) discloses a way of preventing unintended registration of a key, but either singularly or in combination with other prior art, fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
